

Star Cement Ticks another First in North-East- A Prestigious 'NABL Accredited' Cement Lab

Guwahati, June 9, 2021: Star Cement, the most trusted and premium cement brands of North-East has recently added a new feather to its cap by becoming the first cement lab of the region to receive a NABL accreditation.

National Accreditation Board for Testing and Calibration (NABL), an autonomous body under the aegis of Ministry of Science & Technology, Government of India has recently granted its accreditation to the cement testing laboratory of Star Cement Ltd situated at its grinding unit in Sonapur, Guwahati.

NABL is the sole body authorized by the Government of India to grant accreditation in almost all the fields of science, engineering and medical testing. The accreditation granted to the testing laboratory of Star cement provides the underlying assurance that the organization is adhering to the internationally recognized standards for testing and calibration.

Commenting on the feat, Shri Sanjay Kr. Gupta, CEO, Star Cement said, "We are honoured to become the first cement testing lab of the region to receive the prestigious NABL accreditation."

"This recognition from a body authorized by the Government of India will definitely strengthen the trust and confidence of our customers on Star Cement's commitment in delivering the most premium quality cement to them," Shri Gupta added.

Congratulating the Star Cement Team on this achievement, Shri Mukesh Saxena, Sr. VP & Plant Head Guwahati Grinding Unit, Star Cement said that it is Team effort that has lead the company to record this unique achievement in NE Region.

"NABL accreditation of our Cement Lab will ensure consistency in our product quality and will provide Star Cement products a clear differentiation in the market place. It will further strengthen the company's resolve towards excellence in customer services and product innovation," Shri Saxena added.

Laboratory accreditation is a means of determining the technical competence of laboratories to perform specific types of testing, measurement and calibration. And, the intensive assessment process is done by technical expert auditors, lead auditors from renowned laboratories, research centers and various other government organizations involved by the NABL authorities.

Star Cement Ltd. (SCL) is one of the leading cement players in East India cement market with around 6 MT annual manufacturing capacity. Company's flagship brand Star Cement is a household name in North-East and Eastern states.
